

Invest in Your Community

Integrative Inquiry Consulting is committed to providing services to organizations and businesses that are working to improve their communities. We offer discounted services for non-profits and public institutions that need culture change support, but lack funds to work with us. However, even with adjusted rates, there are projects that cannot get off the ground without additional support. That's where you come in.

As a Corporate Sponsor, you help directly and transparently support these needs by funding one of our Community Projects. 100% of the money goes directly to project costs and development. You make this work possible.

Sustainable Change

OUR NEW INITIATIVE: The R.I.S.E. Program

Resiliency. Integrity. Support. Empathy.

We are partnering with four high schools, Freeport, Greely, Yarmouth, and Hebron Academy to pilot a new program that is designed to increase self-awareness and communication skills across their student body and faculty, fostering opportunities for courageous dialogue, reflection, and connection. It is explicitly designed to help marginalized students find the support and space they need to speak up and call others into change initiatives and to make the school a truly safe space for all students.

The program is self-sustaining by design, from the comprehensive curriculum development strategy to the train-the-trainer process which would develop a collaborative training force that could support ongoing initiatives long past the initial pilot.

Unfortunately, the challenges of COVID-19 have stretched school budgets and bandwidth to new heights. Though schools recognize the need to create safer spaces, funding is needed in order to move this much needed work forward.

The Power of Choice

As a Corporate Sponsor, you can choose where your money goes and how we acknowledge your contributions to make sure it aligns with your interests.

HOW WE ALLOCATE FUNDS

Interested in supporting certain aspects of the project that more closely align with your business mission or charitable goals? Corporate Sponsors can choose what part of our project to support, until each phase is financed.

PHASE 1 Curriculum

Bringing together instructional design experts and community stakeholders, we will build a comprehensive year-long program for each grade level that follows them through their high school experience.

FUNDING GOAL: \$10,000

PHASE 2 Trainer Team

Working with 10 selected faculty and students from each school, we will deliver a Trainer Development program to make sure that feel confident to run this program once the program ends, insuring RISE is sustainable and replicable.

\$20,000

PHASE 3 Pilot

We launch the program across each participating school, setting up robust evaluation strategies and feedback mechanisms to adjust the program as needed.

\$15,000

HOW WE THANK YOU

Tell us how to acknowledge your support by selecting any of a variety of options in addition to the standard logo placement. For every \$1,000 donated select an additional feature. (Some features are restricted to a limited number of sponsors). Or reach out for something more customized!

Social Media Footprint

Featured representation on our social media platforms with links to your business.

Live Event Marketing

Your logo will appear on a customized virtual background during trainings.

Access to Stakeholders

10 minutes of direct communication with our program stakeholders.

Personal Thank You

During pre-recorded and live events we will give a personal thanks to your business.

Free Coaching Calls

Access Integrative Inquiry's expertise through free 90 min coaching sessions.

Reporting Acknowledgement

our reports will have a specific call out to you, featuring a statement from your company in the report.
